## Traffic Light System: Fact Sheet 6

### Risk Assessment in relation to COVID

*Current as at 07 April 2022*

**Key COVID risks are around:**

#### **People**

- **Their health status**
- **Their age**
- **Their vaccination status**

#### **People - Behaviour**

- **Their attitude toward public health protection matters (Distancing, masks, personal hygiene etc)**
- **The number and proximity of personal contacts they encounter**
- **Willingness to stay home if have symptoms**

#### **Place**

- **Ventilation**
- **Cleaning/Hygiene**

Consider these aspects when undertaking your risk assessments and designing mitigation strategies.

Good use of public health protection measures is key to managing risk.
