# History

St. Andrew's has a long history of providing care to children and families in need. In the late 1880s it established a children's home, first in Nelson, then in Richmond.

Its focus shifted in the 1980s as a result of changing models of care. A new trust was established and the children's home leased to The Open Home Foundation.

Further changes led to the home being sold in 2016. Proceeds from the sale have enabled the trust to continue its work now through the provision of grant funding.

## How can you help?

- By praying for the work of the trust
- By being the eyes and ears of the trust – bringing to our attention the needs of children and families at risk
- By donations and bequests

For further information about the trust
